
We are thrilled to reopen Beauty Lounge St Kilda

It's been a long few months for all of us and we thank you, our amazing clients who have supported us throughout this period. We want our salon to be somewhere you can relax and feel safe so things will be a bit different when you enter Beauty Lounge.

What we're continuing to do as a precaution will be as followed:

- We are still following and taking on board all guidance from the authorities.
- Our staff have undertaken the Australian Government COVID19 Infection Control Training.
- Our treatment rooms have always been and will continue to be sanitised between every customer, as well as all shelves, bins, handles and surfaces in the rooms and throughout the whole salon.
- We have included anti-bacterial hand sanitiser stations throughout the salon which we encourage you to use.
- We have added hand wash and social distancing guidelines throughout the salon.

What we ask from you when attending your treatments:

- Upon arrival and departure from the salon please use the hand sanitiser located at either reception or lounge area.
 - Please arrive to your appointment between 10-15 minutes earlier.
 - We ask you to come to your appointment alone if possible to minimise the number of people in the space.
 - Please follow the 1.5 meter social distancing rule at all times.
 - Please practice regular hand hygiene, social distancing and respiratory etiquette both at our salon and in your daily routine.
 - Water facilities will no longer be available on a self-serve basis and will be served by staff only.
 - We ask that you pay via card for your treatment to minimise handling of cash. However we will still accept cash payments.
-
